MYUNGJE (EVAN) KIM

Statistics and Data Science Graduate Student

Pleasant Hill, CA | (616) 334-2408 | kkumedic@gmail.com | linkedin.com/in/myungje-kim-257857249 | github.com/rlaaudwp96

SUMMARY

Statistics and Data Science graduate student preparing for entry-level data science roles. Hands-on experience in statistical analysis, machine learning, predictive modeling, NLP, and data visualization through graduate research and reproducible Python and R projects.

TECHNICAL SKILLS

Languages: Python, R, SQL
Machine Learning: Predictive modeling, feature engineering, Tidymodels, NLP, explainable AI
Statistics: Regression, ANOVA, hypothesis testing, probability, statistical inference
Data Tools: Shiny, ggplot2, Tableau, Power BI, Git, GitHub

EXPERIENCE

Graduate Research Assistant | California State University, East Bay | Hayward, CA | Sep 2026 - Present

- Apply statistics and data science methodologies to develop a machine learning-based food-residue classification system through the OSCAR program.
- Prepare research findings, visualizations, and technical materials for presentation at the CSUEB Student Showcase in April 2027.
- Translate research questions into data preparation, exploratory analysis, model development, and evaluation workflows.

Teaching Associate | California State University, East Bay | Hayward, CA | Aug 2026 - Present

- Instruct and support STAT 100E students in descriptive statistics, probability distributions, and hypothesis testing.
- Design interactive learning modules and guide software-supported applied statistical analysis to reinforce quantitative concepts and data interpretation.

Teaching Assistant | California State University, East Bay | Hayward, CA | Jan 2026 - May 2026

- Graded formative assessments and provided feedback to support statistical reasoning and data interpretation.

Mathematics Instructor | Contra Costa Christian Schools | Walnut Creek, CA | Jul 2023 - Jun 2025

- Taught Data Science, AP Calculus AB, Precalculus, Algebra II, and JavaScript, connecting quantitative concepts to applied problem solving.

PROJECTS

Semiconductor Market Intelligence NLP Dashboard | Python | NLP | Explainable AI | github.com/rlaaudwp96/chipintel-nlp

- Built a dashboard to compare semiconductor-company trends and risks; analyzed 12 documents from 6 companies using topic detection, sentiment analysis, TF-IDF keywords, and semantic search.

Insurance Cost Prediction | R | Regression | Feature Engineering | github.com/rlaaudwp96/Health-Insurance-Cost-Analysis-Price-Prediction

- Improved insurance-cost prediction for 1,338 policyholders by adding log transformation, nonlinear terms, and interactions; adjusted R2 increased from 0.782 to 0.838.

Titanic Survival Prediction Dashboard | R | Tidymodels | Shiny | github.com/rlaaudwp96/stat652-titanic-shiny

- Built an interactive dashboard to compare survival predictions across 5 classification models using an 80/20 stratified split and accuracy, precision, recall, F1, and ROC AUC.

Seasonal Egg Production Analysis | R | ANOVA | Statistical Inference | github.com/rlaaudwp96/Egg-Production-Seasonal-Analysis

- Tested whether egg production changed by season using 216 USDA observations across 4 seasons; ANOVA found no statistically significant difference ($p = 0.997$).

Food Residue Classification System | Machine Learning | Research

- Developing a classification workflow to identify food-residue types through the OSCAR Program; preparing data, visualizations, model evaluation, and showcase materials.

EFL Championship Promotion Analysis | R | SQL | BigQuery | Machine Learning | github.com/rlaaudwp96/EFL-Promotion-Analysis

- Studied which team-performance factors were associated with promotion using 480 team-season observations across 20 seasons; built regression, logistic-regression, and random-forest models.

EDUCATION

M.S. in Statistics - Data Science | California State University, East Bay | Hayward, CA | 2025 - 2027
GPA: 3.88 | Graduate Research Assistant, OSCAR Program | Relevant coursework: Machine Learning, Regression, ANOVA, Statistical Inference, Hypothetical Testing

B.A. in Secondary Education and Mathematics | Calvin University | Grand Rapids, MI | 2019 - 2023

SCHOLARSHIPS AND AWARDS

Scholarship Recipient (May 8, 2026) | Endorsed by Dr. Chatterjee (Chair of Statistics) | California State University, East Bay

CERTIFICATIONS

Google Data Analytics Professional Certificate (Coursera), Nov 2024 | Introduction to Statistics (Stanford Online), Nov 2024
Korean: Native or bilingual proficiency | English: Full professional proficiency | Indonesian: Working proficiency
