EDUCATION

M.S. in Statistics - Data Science | California State University, East Bay, Hayward, CA | 2025 - 2027
• GPA: 3.88; Scholarship Recipient

B.A. in Secondary Education and Mathematics | Calvin University, Grand Rapids, MI | 2019 - 2023

OBJECTIVE

Graduate student in Statistics - Data Science seeking an entry-level data science or data analyst role applying Python, R, SQL, statistical modeling, and machine learning to practical business problems.

TECHNICAL SKILLS

Programming: Python, R, SQL | Machine Learning: Predictive modeling, feature engineering, NLP, explainable AI | Data and Visualization: BigQuery, Shiny, ggplot2, Tableau, Power BI, Git, GitHub

RELEVANT COURSEWORK AND CERTIFICATES

Coursework: Machine Learning, Regression, ANOVA, Statistical Inference, Advanced R for Data Science | Certificates: Google Data Analytics Professional Certificate (Coursera); Introduction to Statistics (Stanford Online)

RESEARCH EXPERIENCE

Graduate Research Assistant | California State University, East Bay - OSCAR Program, Hayward, CA | Sep 2026 - Present
• Developing a machine learning classification workflow for food-residue identification; preparing data, evaluating models, and presenting findings.

RELEVANT PROJECTS

Semiconductor Market Intelligence NLP Dashboard | Python, NLP, Explainable AI | 2026 | Personal
• Built an explainable dashboard comparing trends and risks across 6 semiconductor companies using topic detection, sentiment analysis, TF-IDF, and semantic search.

Health Insurance Cost Prediction | Python, Regression, Feature Engineering | 2026 | Academic
• Modeled 1,338 insurance records in Python; improved adjusted R^2 from 0.782 to 0.838 using log transformation, nonlinear terms, and interactions.

EFL Championship Promotion Analysis | SQL, Python, BigQuery, Machine Learning | 2026 | Personal
• Analyzed 480 team-seasons with Python and BigQuery SQL; modeled promotion using regression, logistic regression, and random forest.

FAA Bird Strike Analysis | R, ggplot2, Data Visualization | 2026 | Academic
• Compared California with other U.S. states across flight phase and time of day to identify collision-risk patterns.

Titanic Survival Prediction | R, Shiny | 2026 | Academic
• Built an interactive Shiny workflow comparing five classifiers and evaluated model performance using accuracy, precision, recall, F1, and ROC AUC.

WORK HISTORY

Teaching Associate | California State University, East Bay, Hayward, CA | Aug 2026 - Present
• Teach introductory statistics, probability, and hypothesis testing; lead applied labs and problem-solving sessions.

Mathematics Instructor | Contra Costa Christian Schools, Walnut Creek, CA | Jul 2023 - Jun 2025
• Taught AP Calculus AB, Precalculus, Algebra II, Data Science, and JavaScript.
